

To ensure that your event is a success and to foster fruitful discussions, our team works shoulder-to-shoulder with yours, both in France and abroad.

Over 20 years' experience in all languages:

| Simultaneous conference interpretation

The interpreters work in pairs in a sound-proofed booth (1) or using portable equipment (2) and translate the speaker in real time, with a changeover of interpreter every 30 minutes.

Two interpreters per foreign language

1

| Consecutive interpretation

Interpretation without equipment, where the speaker's comments are repeated in the other language after he/she has finished speaking.

Particularly suitable for official speeches, inaugurations and so on.

Unlike simultaneous interpretation, consecutive interpretation doubles the length of the proceedings.

One interpreter per foreign language.

2

| Liaison interpretation

The conversation is translated sentence by sentence as it goes along, without equipment. Suitable for informal meetings or commercial negotiations. Only one interpreter per foreign language.

INTO-NATIONS stands for:

- An international team of expert interpreters
- The physical presence of an Into-Nations team co-ordinator in the field
- A high quality service combining flexibility and conviviality
